Profile

Seeking a challenging position as a MERN stack developer, where I can utilize my technical skills and experience to contribute to the growth of the organization.

Experience

Self-Working as a WordPress Developer **NOV 2022 – Present**

- Monitored website performance and handled troubleshooting and WordPress issues.
- Managed WordPress website back-end including plugins, tools, and database.
- Design and implement websites for clients using the WordPress creation tool.
- Make donation website project of https://rahaischool.org
- Make website project for Dubai Client https://redah.ae with my project partner.
- Configuration of SMTP and convert many local websites to live.

Self-Learning for MERN stack Development **Till present**

- Proficient in building dynamic and responsive web applications using the MERN stack.
- With expertise in developing reusable UI components using react and state management with Redux.
- Skilled in securing web applications using JWT-based authentication and authorization.
- Continuously learning and exploring new technologies to enhance my skills as a full-stack developer.
