

Ahmad Ali

Frontend Developer

RESUME OBJECTIVE

Seeking a challenging position as a MERN stack developer, where I can utilize my technical skills and experience to contribute to the growth of the organization.

EXPERIENCE

MERN Stack Development

June 2022 - Present

1. Final Year Project: E-Clinic (MERN Stack)

- Developed a comprehensive web application for a final year project, utilizing the MERN (MongoDB, Express.js, React, and Node.js) stack.
- Designed and implemented features for patients to schedule appointments, view medical records, and communicate with healthcare providers securely.

2. Blog Website with CRUD Operations

- Designed and built a feature-rich blog website from scratch, incorporating CRUD (Create, Read, Update, and Delete) functionality.
- Utilized React to create a dynamic and responsive user interface, enabling users to create, edit, and manage blog posts effortlessly.

3. Personal Portfolio Website

- Created a professional portfolio website to showcase skills, projects, and achievements as a full-stack developer.
- Employed React for building interactive and visually appealing UI components.
- <https://personal-portfolio-iota-teal-28.vercel.app/>

4. Mini Projects: To Do App, Calculator, and more

- A collection of mini projects, including a To-Do List application and a versatile calculator.

Make Projects from Outsourcing with WordPress

- Make News website project of <https://lapiarabian.com>
- Make website project for Dubai Client <https://redah.ae>
